

# Moon 4 ~ Moon of Form

## **Human Serpents Mirror Form**

*while Storm Wizard Balancing*

Free form **Humaning** ripens and matures us through our authentically meeting Life inside of this storied moment.

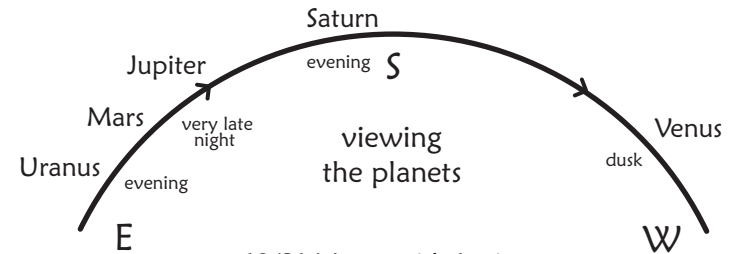

Dynamic **Serpent** moves down and in, opening a portal of intensely embodied remembrance of freedom in form, tangibly felt. Living the dance as the form, **New Moon in Scorpio** energy emerges expressively from our depths, without leaving them. Become a living portal.

Turning toward **Mirror** shifts our perceptual reality, transforming us by freeing our minds and hearts to live freshly arising reflections rather than calcified insistences. This includes relinquishing ways we've oriented by our wounds, as **Jupiter in Gemini sextile Chiron in Aries** comes around again, actuating our lived experience of healing and teaching through direct transmission.

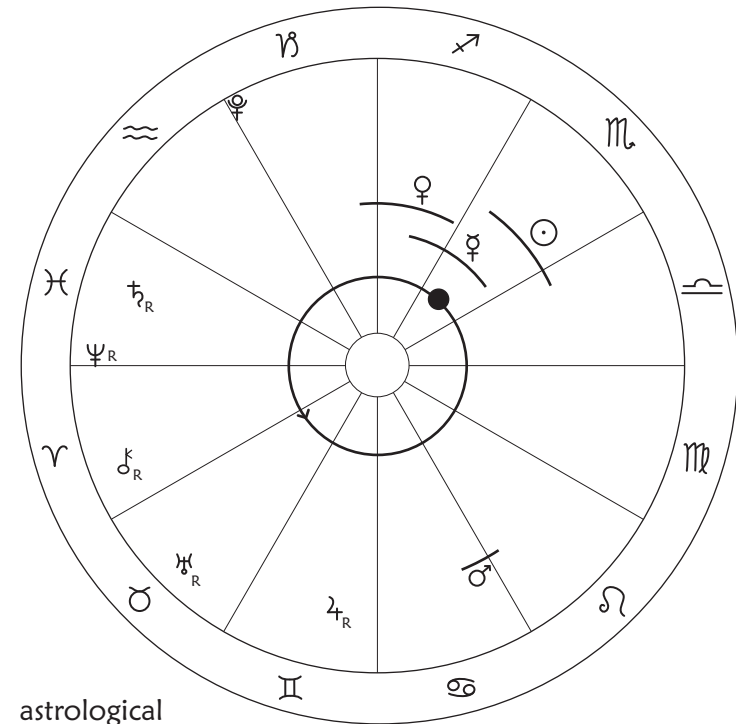

**Mars enters Leo**, introducing a long learning theme, active until June due to Mars' soon to come retrograde. We're encouraged to embody a more willing, sunny, enthusiasm for action, to be playful and creative in how we show up, further heartened by Moon visiting Venus for the 4th vestment bestowal of a heart amulet.

As this Moon of Form comes to a close, Uranus is close to opposition nearly rising as Sun sets, sparking reflections, electrifying the moment, which also happens to be the Crossover midpoint of this 260-day Tzol'kin round of Living Freely, the moment of transformation. **Embodied Form coming into an experience of Selfhood is the crux of our learning to Live Freely!**
