Mirroring Monkey Seeds Purposeful Originating as Seed Mirrors Attuningly

This year begins with **Saturn conjunct Neptune in Aries sextile** both **Uranus in Gemini** and **Pluto in Aquarius**, who are trine one another, *vibratorily crafting a newly emerging Field of Aliveness.*

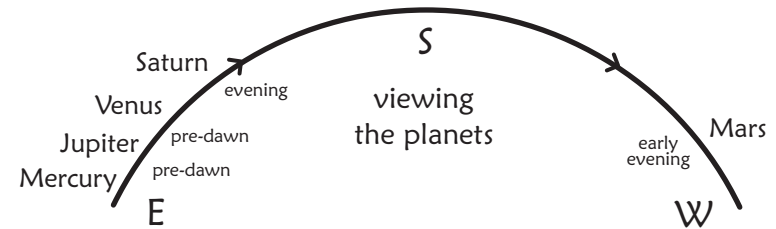

Drawn thru the Magnetic Gateway into the journeying of this new year, reflectively **Mirroring** perceptually and experientially transforming new realities, we **Attune, Seed** germinating in harmonic resonance with this humming Field of Aliveness.

Monkeying around, curiously, awake and aware, transforms us through experiences of new realities. **Full Moon in Aquarius** shines, a full-round Mirror, actively engaging us with the beyond human. **Mercury turns Direct in Leo**, playfully & enthusiastically, as the benefics Venus & Jupiter in Cancer shine together as Morning Stars, bringing a nourishing felt-sense of belonging, as the positive potentiality of **Saturn sextile Uranus** sparks revolutionary realness.

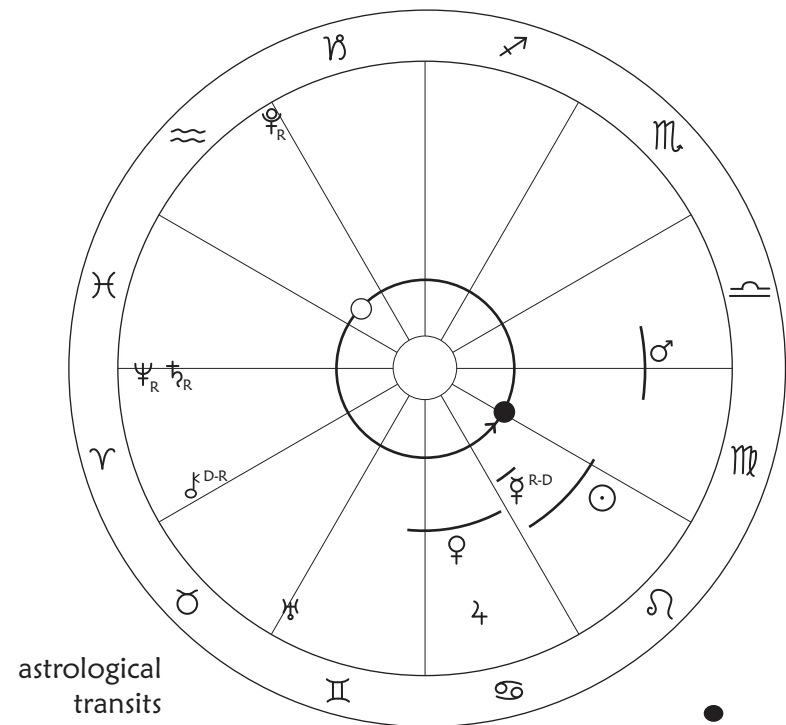

Seed sprouts, slowly opening an intensifying portal of organic growthfulness, expressing our purpose in this year — to simply be emergent in, and with and as, the Field. Moon visits Venus for the 5th divestment, relinquishing the solar plexus ring of power, inviting us to be willingly plant-like in expressing the storied unfoldings.

Sun & New Moon in Virgo seed sprout, originating new patterns.
