

Moon 8 ~ Moon of Action

Skywalker World-Bridges Storm Actively as **Seed Mirrors Attuningly**

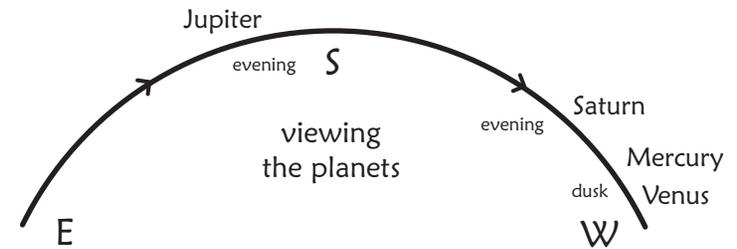

Skywalker journeys, emergent self in motion, continually refining through actively living our new attunement with, and as, the Field.

Ever-emerging from the meeting place between, **WorldBridger** lives liminally. **Saturn into Aries**, moving gradually, and with grace, lingers on the threshold of arisingness, moving with great expressive humility, rather than impulsively individuating by separating.

New Moon in Aquarius ~ Annular Solar Eclipse square Uranus in Taurus brings the **Chinese New Year of Yang Fire Horse**. Passionate, restless, strongly embodied energy and independence of thought, constantly in motion seeking new experiences, becomes this new place of moving from, the willingness to be Life actively emerging. Venus slowly becomes visible as Evening Star, blessed by the subtle diaphanous gown of waxing Crescent Moon coming by, Moon then graces Mercury and Saturn just as **Saturn conjuncts Neptune** exactly, now in Aries to stay. Real dream stories artfully unfold in the Field of Universe. **Mercury stations retrograde in Pisces** to remain immersed.

Fire Horse gets going, living as an energetic **Storm** — energizing, cleansing, and refreshing. **Full Moon in Virgo ~ Total Lunar Eclipse** resets our living of everyday practical sacredness, mentored by Life.
