

● Moon 1 ~ Moon of Purpose

Wind lifts Eagle Star into Purposeful Originating *as Moon Rides Wind*

We ride into this new year upon **Wind**, breath of spirit and the unseen, restless speech and song of aliveness, amidst **Neptune in Aries sextile Pluto in Aquarius**, & sextile **Uranus in Gemini trine Pluto**, vibratorily dancing a harmonious newly emerging Field of Aliveness. Leo Sun shines within this Field in the opening days of this year.

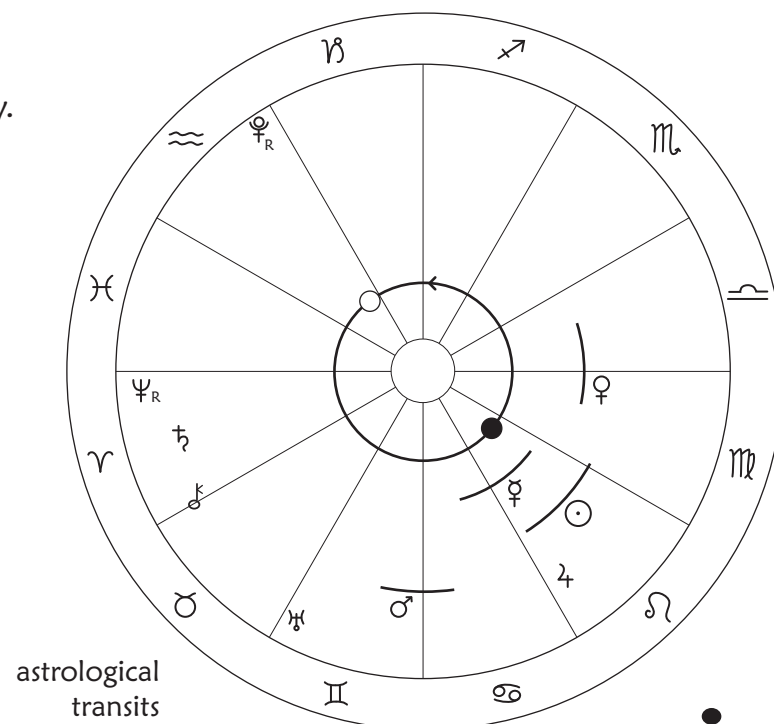

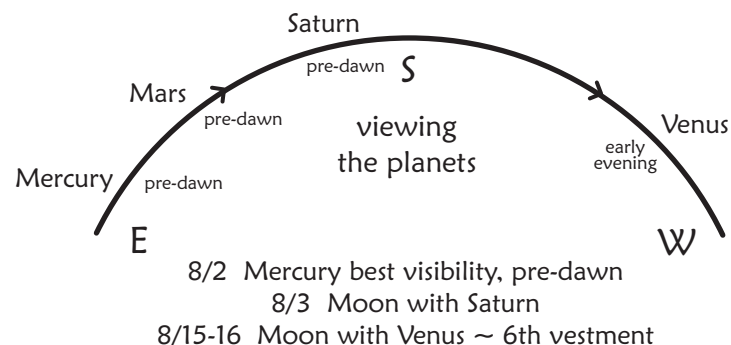

Drawn thru the Magnetic Gateway into the journeying of this new year, moving in harmonic resonance with this humming Field of Aliveness, the new year arrives on an 8 Moon day, as **Moon Rides Wind**, in action, living, moving, phase changing, continually.

This very day, the **True Lunar Nodes** (related to eclipses) shift signs into North Node Aquarius/South Node Leo. Eclipses & New and Full Moons will be especially important happenings all year. **Full Moon in Aquarius** near Pluto, with Sun conjunct Jupiter in Leo, arrives, re-activating the new Field Basket, welcoming us into living this new story.

Eagle lifts into flight, winging on Wind, perceiving and transforming, expansively. Venus & Mercury dance the Field. With **New Moon in Leo ~ Total Solar Eclipse**, the Black Moon resets reality, generously.

Star carries beauty and elegance in its storied turningness, ripening us through the creative selfing magic of the moment. Moon visits Venus to confer the 6th vestment scepter of illuminated perception.
